

VideoCentric is a UK-based integrator specialising in cloud collaboration and video conferencing solutions for businesses, educational institutions, healthcare, and other sectors. Their services cover a wide range of communication technologies, including Microsoft Teams, Zoom, and Webex, with solutions for modern meeting rooms, hybrid workspaces, and desktop setups. VideoCentric provides end-to-end services, from consultation and design to installation, integration, and ongoing support. Their partnerships with industry-leading brands ensure high-quality, reliable solutions tailored to meet each client's specific needs.
